ArisGlobal

IDMP

Compliance for today. Readiness for tomorrow.

LifeSphere® IDMP is a simple-to-use, ISO IDMP cloud application that addresses the challenges of implementing Identification of Medicinal Products (IDMP) standards. With LifeSphere IDMP, life sciences companies can achieve compliance with xEVMPD, IDMP, UDI, SPL, and other standards, and collect data in an ISO IDMP-compliant fashion.
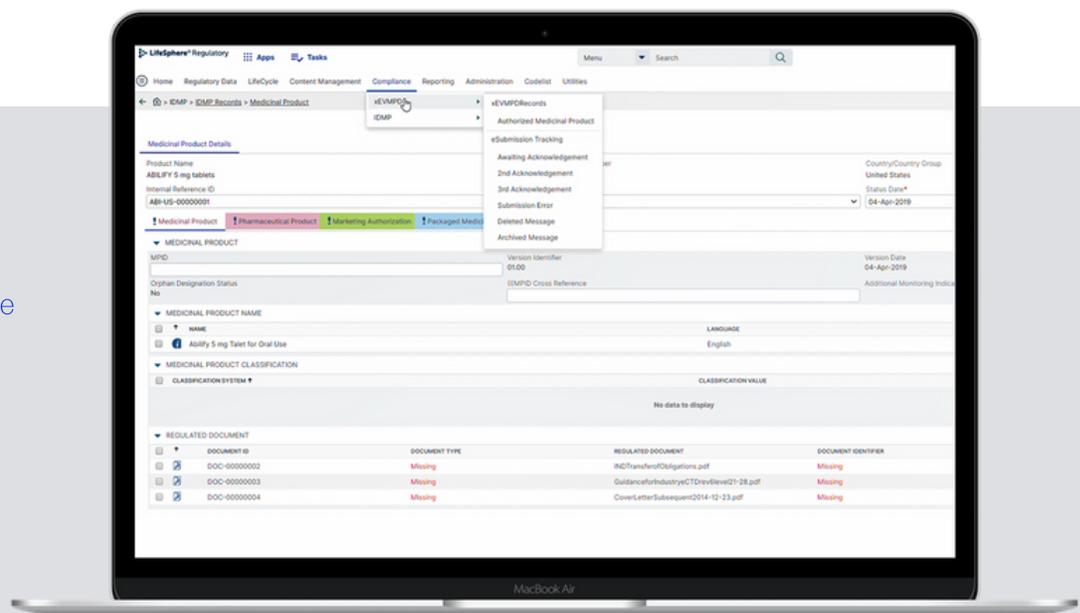

Using a flexible interface layer, companies can collect information from different sources, and consolidate, map and transform that information before filing it into a central repository that conforms to the complete ISO IDMP model for managing product information.
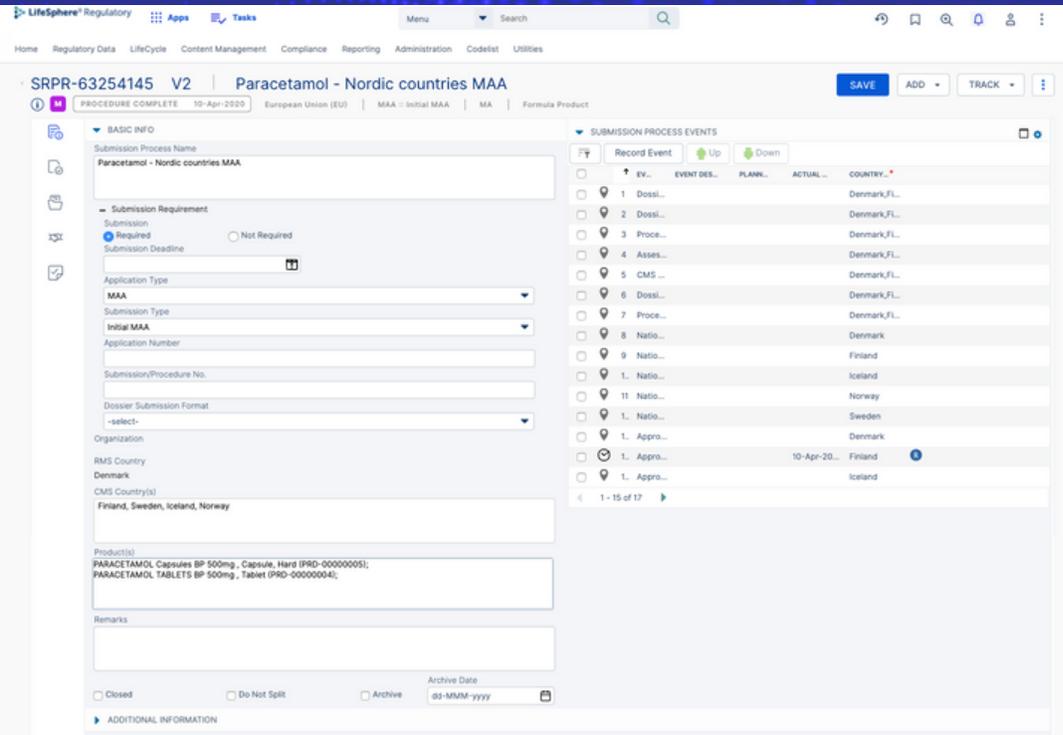

Future-proof your technology.

As a hosted solution on our secure validated cloud, LifeSphere IDMP adapts over time to support your journey through continued xEVMPD compliance, multiple phases of IDMP compliance, UDI and beyond.

LifeSphere IDMP

- Future-Proof Compliance
- Rapid Implementation
- Innovative Automation
- Seamless Integration
- Improved Data Quality

DELIVERING RESULTS TO 250+ GLOBAL CLIENTS

30
YEARS AS A LEADER IN LIFE SCIENCES TECHNOLOGY

80%
OF THE TOP 50 GLOBAL PHARMA AS CUSTOMERS

100%
COMPLIANCE WITH GLOBAL REGULATIONS

LifeSphere IDMP is built to share medicinal product information, which increases cross-departmental business process efficiency and promotes collaboration.

Seamless Integration with Existing Systems.

Open architecture makes it easy to link source systems with IDMP data.

Worry-Free Implementation.

Fast, knowledgeable teams adhere to industry best practices to get your teams up and running quickly.

Simple, Easy-to-Learn Interface

Designed to be easy and intuitive to use, with an interface designed for users of all skill levels.

Pre-Validated Cloud Updates.

LifeSphere IDMP provides seamless, pre-validated cloud updates to the latest functionality, insulating companies from changing requirements and avoiding disruption to their validated environment.

About ArisGlobal

ArisGlobal transforms the way today's most successful life sciences companies develop breakthroughs and bring new products to market. Our end-to-end drug development technology platform, LifeSphere®, integrates our proprietary Nava® cognitive computing engine to automate all core functions of the drug development lifecycle. Designed with deep expertise and a long-term perspective that spans more than 30 years, LifeSphere® is a unified platform that boosts efficiency, ensures compliance, delivers actionable insights, and lowers total cost of ownership through multi-tenant SaaS architecture.

Headquartered in the United States, ArisGlobal has regional offices in Europe, India, Japan and China.
