Discover the value of LifeSphere Safety, powered by LifeSphere NavaX
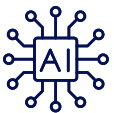

LifeSphere® SAFETY

Leverage the latest innovations to drive unmatched value, including up to 50% efficiency gains and 33% cost savings across the safety lifecycle.

Go beyond the status quo to drive next-level value in Safety.

In a rapidly evolving pharmacovigilance landscape, leading organizations are embracing the latest Safety innovations, including GenAI and LLM technologies, to achieve more with less resources, harmonize disparate systems and teams, and ultimately ensure better patient outcomes.

Our industry-leading LifeSphere Safety platform positions these firms for success by delivering significant and quantifiable value through the end-to-end pharmacovigilance lifecycle, including unmatched efficiency gains, cost savings, and ecosystem harmonization, all to ensure you get the most out of your PV investment.

LifeSphere Safety Foundation

Cutting-Edge Innovation

We place the most cutting-edge automation at your fingertips, including the latest Gen AI capabilities, while heavily investing in ongoing Safety innovation.

Proven ROI

Achieve up to 50% efficiency gains and 33% cost savings across the PV lifecycle using a proven, end-to-end platform with advanced automation in production.

Safety Leadership

We bring 30+ years of extensive domain expertise in Safety, with >7M cases processed annually for 300+ customers, including 50% of the Top 10 global biopharma.

Discover the value of LifeSphere Safety.

Unmatched Efficiency Gains
Generate >50% efficiency gains across the end-to-end Safety lifecycle, including >65% gains in case intake, using the latest GenAI technologies.

Significant Cost Savings
Drive up to 33% cost savings with a single platform for streamlining workflows, consolidating your IT ecosystem, and maximizing scalability.

Seamless Interoperability
Break down data siloes via integrations with third-party systems and across departments, including Regulatory, Medical Affairs, and Quality.

Groundbreaking Technology
Leverage the latest Safety innovations, including GenAI capabilities, powered by our cutting-edge LifeSphere NavaX cognitive computing engine.

Business Transformation
Utilize our experienced in-house teams to seamless onboard and maximize the value you gain from your investment on Day 1 and beyond.

Next-Level PV Insights
Gain deeper, real-time PV insights, including up to 40% faster signal analyses, with flexible and robust reporting and analytical capabilities.
