

# Document Distribution

## Safety Document Distribution Made Simple

**Document Distribution** simplifies your global drug safety and safety reporting operations by making it quick and easy to distribute safety reports to key stakeholder groups.

### Key Benefits

#### Audit Readiness

Enable improved oversight and greater ease maintaining compliance with regulators.

#### Maximize Efficiency

Automate manual processes to enable the distribution of safety reports in real-time.

#### Enhanced Collaboration

Achieve greater cross-functional transparency via a shared platform and reporting.

#### Cost Savings

Save time and effort with out-of-the-box and regularly updated reference models.

Deliver real value with  
Document Distribution.

## Features

### Secure SaaS Platform

Provide a secure, web-based platform for users to centrally manage safety content, seamlessly integrated with your safety platform.

### Content Binders

Support audit readiness with out-of-the-box binder structures with template placeholders.

### Next-Gen Tracking

Facilitate the tracking of distributions through flexible and customizable dashboards and comprehensive audit trails for documents.

### Reduce Site Burden

Streamline cross-reporting and prevent duplicate distributions with a single point of access for all portal users to view relevant distributions.

### Enhanced Training Module

Facilitate the creation, scheduling, publishing, and assignment of training for specific targeted users or contacts, while tracking compliance through reports.

### Advanced Rule Builder

Enable the creation of customized rules at product, study, site, and country levels to comply with varying regulations across different countries.
